

# Do you speak French? or Are you learning French?

**If so, you can help linguists understand how people acquire French and earn \$20!**

Dr. Vincent Chanethom (French, Modern and Classical Languages) and Dr. Harim Kwon (Linguistics, English) are searching for **native** and **non-native speakers of French**.

- What? (i) You will complete a questionnaire about your language background.  
(ii) We will record your voice and capture your tongue movement using ultrasound imaging while reading French sentences aloud.
- Where? GMU phonetics labs
- When? We will find a mutually convenient time.
- How long? The experiment will typically last 70 min.
- Qualifications (i) You must be either native or nonnative speaker of French (beginners are welcome as long as you can read French sentences!)  
(ii) You must be at least 18 years old  
(iii) You must not have any history of speech/hearing disorders

**Please contact us at [nnacorporus@gmail.com](mailto:nnacorporus@gmail.com) to obtain further information on how you can participate!**
